Reliable electricity service for your community

Dear Town Manager,

We live in the most heavily forested state in the nation but having beautiful trees too close to our electrical wires can be a public safety problem or cause power outages in heavy winds or snow and ice buildup breaks branches. That's why we work year-round to maintain safe clearances around our lines. It's the most effective way we can reduce tree-related outages and deliver the reliable electricity service you depend on. We know trees are an important part of any community, and our local arborist is ready to work with you.

Our Tree Care crews will be conducting tree work in your community in 2024. They will prune and remove trees, brush, and other vegetation within public rights-of-way to ensure safe and reliable electricity service to your community. We hire only qualified contractors who are trained to use techniques sanctioned by the Tree Care Industry Association.

We'll keep you informed

People who live adjacent to public roads have the right to consult with us before routine work takes place. If you are interested in consulting with us about any of this tree work, please contact us at **group.arborists_cmp@cmpco.com**. Please note, if trees cause outages or pose an immediate hazard to safety or service reliability, we will perform emergency tree work and may not be able to consult with you beforehand.

In an effort to keep our customers informed about the Tree Care plans in your community, on the back of this letter is a poster that you can display on a community bulletin board in your municipal office. Customers can also visit **cmpco.com** for additional information about our Tree Care program.

We are proud to deliver safe, reliable electricity service to the communities of Maine. I look forward to working with you on Tree Care in your community in 2024.

Thank you.

Sincerely,

Kathryn Manende Hall
